# CSI's 24th International Technical Sugar Conference: "Innovative technologies optimizing production"

**July 31-August 1, 2018**  
**The Landmark Hotel**  
**Bangkok, Thailand**

This conference brings together the world's leading sugar experts and top key officers from various sugar mills and refineries from around the world. This is an excellent opportunity to meet the industries experts, learn about the latest technologies and most importantly promote your company to our customers.

The Conference in 2017 was a great success. This 2018, the event will continue to bet on increasing the presence of organizations, exhibitors and sponsors to keep on generating synergies, sharing knowledge, valuable networking and discussions.

We have a line-up of exceptional speakers. The CSI conference is a leading global platform to present and get-up to date with the most innovative developments in the sugar industries.
